

# IMPACT

## STATEMENT

### THE AMERICAN JOURNAL OF CLINICAL NUTRITION

#### HIGH IMPACT

The most highly rated peer-reviewed, primary research journal in the Thomson Reuters *Journal of Citation Reports (JCR)* nutrition and dietetics category, *The American Journal of Clinical Nutrition (AJCN)* publishes the latest research on topics in nutrition, such as obesity, vitamins and minerals, nutrition and disease, and energy metabolism. The *AJCN* was selected by the Special Libraries Association (SLA) as one of the **top 100 most influential journals** in Biology and Medicine over the last 100 years—the only nutrition journal to be so recognized.

**Making A Difference.** Findings published in *AJCN* regularly provide vital supporting evidence for guidelines, reports, and recommendations issued by governments, foundations, and professional organizations. For example, information in *AJCN* underpins:

- the new US Department of Agriculture’s Dietary Guidelines for Americans.
- World Health Organization (WHO) recommendations in the areas of chronic diseases, child health, HIV/AIDS, women’s health, and more.
- UNICEF reports on global efforts to eliminate malnutrition and nutrient deficiencies.
- Pan American Health Organization reports on pressing health issues.
- systematic reviews of healthcare and health policy of The Cochrane Collaboration.
- position and consensus statements of professional and scientific societies such as the Academy of Nutrition and Dietetics; NAASO, The Obesity Society, and the American Diabetes Association.

Every year, the award-winning *AJCN* is at the top of important rankings of journals in the field, including those for best value, most influence, and highest Impact Factor among primary research journals. Articles published in *AJCN* are read by researchers, government leaders, and other decision makers in the public health industry

and are used by health professionals around the world in the formulation of health policies, guidelines, and recommendations.

## THE BEST CLINICAL RESEARCH JOURNAL IN THE NUTRITION FIELD.

A CLEAR LEADER IN THE FIELD, *AJCN* SIMPLY PROVIDES THE BEST, MOST RELIABLE, MOST IMMEDIATE CLINICAL NUTRITION RESEARCH AVAILABLE.

**Most cited and most recommended.** *AJCN* stands alone as the most frequently cited journal in nutrition and dietetics:

- One of 78 nutrition-related publications, *AJCN* alone garners 14% of all citations. In 2013, out of 371,000 total citations to journals in the nutrition and dietetics category, more than 52,000 were citations to articles published in *AJCN*—almost 20% more than the next most-cited journal.
- *AJCN* papers are regularly selected as “most important” by the 5,000 senior scientists and leading experts of Faculty of 1000 (f1000.com) and are included in the monthly *Food Nutrition Briefs* from the International Life Sciences Institute (ILSI) North America.
- Research published in *AJCN* is regularly used by media outlets, including the *Washington Post*, *Los Angeles Times*, *Chicago Tribune*, *Miami Herald*, *Forbes.com*, *Today.com*, *WebMD*, *Medline Plus*, and many more.

**Influential.** *AJCN* has the most impact, the most influence, and the highest immediacy rating of any primary nutrition research journal.

- *AJCN* has an overall Impact Factor of 6.918 and a five-year Impact Factor of 7.802—making it the highest ranked, most cited primary research journal in the field of nutrition. *AJCN*'s Impact Factor places it in the top 4% of all 8,474 journals indexed by Thomson Reuters.
- With an h5-index of 103, *AJCN* is number 1 in Google Scholar's ranking of the top 20 publications in nutrition (*scholar.google.com*).
- *AJCN* has an Eigenfactor score of .083—the second highest among the 78 nutrition journals analyzed by *JCR*. Eigenfactor is a measure of a journal's importance, making *AJCN* one of the most important nutrition journals in the scientific community according to this metric.
- *AJCN* has an Article Influence factor of 2.432—also the highest for a primary research journal—which means that its articles have, on

average, more than twice the influence of the mean article in the *JCR*.

**Immediate.** *AJCN* brings the best nutrition research to print as quickly as possible—while maintaining the quality readers expect.

- *AJCN* articles are published online ahead of print as fully copyedited and composed PDFs within 1 month of acceptance.
- *AJCN* has the highest Immediacy Index of any primary nutrition research journal—1.292—indicating that articles published in *AJCN*, on average, are accessed faster than articles published in other journals.

**Authoritative.** Manuscripts submitted to *AJCN* undergo rigorous and careful review to ensure the accuracy and importance of the findings reported—each manuscript is reviewed by peers an average of 5.5 times—(not including reviews provided by editors)—before acceptance for publication.

- A recent study in the *American Journal of Preventive Medicine* (November 2013) gave *AJCN* top marks for sticking to the facts and not overstating research findings in abstracts.

**Global impact and focus.** The *AJCN* is a true international journal, attracting manuscript submissions and publishing articles by authors around the world.

- Approximately 70% of authors of submitted manuscripts and 60% of authors of published articles reside outside the United States.
- Authors of research published in *AJCN* represent institutions in over 90 different countries throughout the world. This global reach and interest ensures that, regardless of the specific research setting, the most important research findings are published in *AJCN*.

**The best value.** At a cost of only 19 cents per page, *AJCN* ranks as the **#1** value among competitive nutrition publications.
